HOW DRUG AND WHISKEY PATIENTS

ARE TREATED ON ARRIVAL AT JAMES SANATORIUM.

IF "WEARY AND HEAVILY LADEN."

Patients are Assigned to a Comfortable Room in Raleigh Inn, Just as He Would Be at Any Hotel—If Accompanied by Husband or Wife. They Are Given a Room Together, if Alone an Experienced Nurse is Placed With the Patient When Necessary.

Although the James Sanatorium Co. has been in operation in Memphis for a great number of years, and thousands of people have gone forth from that institution relieved of all necessity or demand for alcoholic stimulants, narcotic drugs, cigarettes and tobacco, and have been restored to good physical condition, Charles B. James, the Southern Pioneer in the cure of Drug and Alcoholic Addictions and Cigarettes and Tobacco Habits, says: "There are still those who are laboring under the erroneous impression that on entering that institution the whiskey patient is deprived of his whiskey, and the drug patient is given whiskey just as long as he craves it, and the drug habit is given morphine just as long as he craves it, but that the James treatment is not only antidotal, eliminating and reconstructive, but is also supportive and as a consequence it is not long before the patient is eating and sleeping well, and as a consequence discontinues the use of alcoholic stimulants and narcotic drugs of his own free will, and from that hour that the use of stimulants is discontinued the patient improves rapidly and as a consequence looks upon life as worth living." He also states that in a great many cases the drug patient does not realize when he gets his last dose, the withdrawal having been made by such easy stages.

DRUG QUITTING MADE EASY.

Anyone who has ever tried to quit the use of opiates after having become habituated to their use should appreciate the fact that by the James Improved Treatment they can now be cured of their addiction with comparatively little or no inconvenience, and their general health greatly improved.

QUIT WHISKEY WITHOUT TROUBLE.

From the great number of testimonials from citizens in this immediate territory, the most skeptical should be convinced that no matter how long the patient has been using whiskey to excess, or what his physical condition is, that he can get relief through the James Treatment, and that whether the heart, liver, kidneys and other organs of the body have been weakened by excesses, the James Treatment, which is reconstructive, will overcome such conditions and make life worth the living.

Book containing Chas. B. James' personal references and testimonials from a great number of persons who have taken the James Treatment for the drug and whiskey addictions and tobacco and cigarette habits, with cuts showing the hotel and grounds and the several mineral springs, with surroundings, scenery, etc., will be mailed under plain cover to anyone interested. All correspondence confidential.

YOU CAN BE CURED AT HOME.

Where it is impossible for patients to visit the James Sanatoriums they will furnish their specially prepared home remedies, which can be successfully used in the treatment of alcoholism, drug addictions, cigarette and tobacco habits, where they can have the most cooperation of the patient.
